

EDI Solutions for Health Care Providers

Let Us Help Your Practice Realize the Efficiencies of Paperless Transactions:

SecureClaims provides and supports a full suite of EDI (Electronic Data Interchange) services that are HIPAA compliant, easy-to-use, efficient, affordable, and paperless.

Electronic Claims

- Access more than 1,600 payers through a single online connection
- Fast implementations, sometimes within days of signing up
- Payer reporting presented in a standardized format

ERA & Electronic EOBs

- Reduce manual cash application and automate the posting process
- Reduce costly research and errors
- Retrieve EOB images immediately by patient indexes
- Provides convenience of a single, full feature application for all participating insurance carriers

Real-time Eligibility

- Direct access to up-to-date payer eligibility data
- Response within seconds
- Eliminate phone time and administrative costs

Real-time Claim Status & Electronic Claim Tracking (ECT)

- Greatly reduce follow-up time on unpaid claims
- Real-time response accessed via the Internet
- Easily print or view the results on your screen

Referrals and Authorizations

- Easily obtain referrals and pre-certifications online
- Reduce phone time and distractive costs

Patient Statements

- Reduce preparation costs and the hassle of mailing patient statements
- Ability to print copies of statements
- Suppress invalid addresses automatically
- Receive timely and detailed reports after the submission

Patient Payments

- Allow patients to pay on-line
- Obtain payment pre-authorization and set-up payment plans with patients on future balances
- Auto post/import payment detail into your accounting system
